We seek a team of enthusiastic and energetic people to help us celebrate Civil Engineering with children and adults, as part of our Bridge Adventure Golf in the Cathedral Nave.

Venue: Rochester Cathedral, Rochester, Kent ME1 1SX

Event:
For the month of August, we will have installed a 9-hole adventure golf course in the Nave of Rochester Cathedral. Each hole will represent a different type of bridge. We require education assistants to engage visitors to the adventure golf course and support our education objectives, by hosting self-guided bridge and civil engineering themed activities. Although full training will be provided, an interest in bridges would be an advantage.

Role:
- Report to Caroline Chisholm, Education Manager, or representative at St Andrew’s House, The Precinct, Rochester ME1 1SU.
- Attend and support the self-guided activities in the Cathedral, welcoming visitors warmly.
- Make visitors aware of the aims of the Rochester Bridge Trust, and share Education resources and literature as appropriate.
- Ensure equipment is packed away at the end of the sessions, so it is available for the next session.

What we will provide:
- £8.21 per hour.
- Uniform t-shirt.
- A rota of staffing, in 2-hourly slots.
- Training on the activities being run.

What we need from you:
- A letter or email of application, specifying your availability for sessions of up to 4 hours (10am to 2pm) Monday to Saturday between Monday 5th August and Friday 30th August.
- In terms of safer recruitment at an event with children we ask that you:
  1. supply contact details (name, email and phone number) for two referees who have worked with you recently. We will ask them to confirm they believe you would work in this role safely with children, using a simple form.
  2. complete the attached self-declaration form, confirming that you know you are safe to work with children.
  3. let us see any recent DBS certificate if you have one.

I hope you can come and be part of our team
